

Maintenance medications are commonly prescribed and taken continuously to manage chronic conditions, such as high blood pressure, asthma, diabetes and high cholesterol. Adhere 90 is a program that requires members to receive a 90-day supply of certain maintenance medications after their first 2 fills of a prescription. Receiving a 90-day supply of medication helps increase adherence to medication regimens and is convenient for members.

90-day supplies of medications can be filled at a 90-day retail pharmacy or through mail order. The Adhere 90 program only applies to the list below; other medications may be filled at any network pharmacy.
